Generating Ideas for a Research Topic

A. Think back on what we have studied in the course. List some topics that immediately come to mind.

1. 

2. 

3. 

4. 

5. 

B. Skim your textbook and your notes for references to the topics you have listed. Reread the information you find.

C. Think of a question for each topic that you cannot answer without further investigation. Write the questions under the topics listed above.
