Release of Information Concerning Student Sex and Kidnapping Offenders

Responsibilities

Principals are required by law to respond to notification by law enforcement or courts about students who are sex or kidnapping offenders and to disseminate information about such students. Principals may rely on the Office of Superintendent of Public Instruction (OSPI) Principal's Notification Checklist for additional assistance.

Principals

Principals have a responsibility to develop a:

- A. Relationship with law enforcement agencies dealing with students required to register as a sex or kidnapping offender.
- B. Procedure for acceptance of notifications from law enforcement and courts.
- C. Procedure to notify teachers and appropriate staff of their roles and responsibilities with respect to these students, including confidentiality, harassment, intimidation and bullying issues.
- D. Protocol for responses to public inquiries about students who are required to register as sex or kidnapping offenders, stressing confidentiality and FERPA rules (in developing such protocol, the principal will need to determine how district staff will be notified and which staff will be in charge of monitoring these students).
- E. Procedure and protocol for safety planning, which will include student meetings, designing and monitoring student safety plans, and implementing safeguards when students change schools or change sex offender levels or status with parole or probation.
- F. Protocol of best practices for contacting the district superintendent or designee with a list of student sex and kidnapping offenders when notification is received from law enforcement and courts.

Students

It is the responsibility of students who are required to register as sex or kidnapping offenders to follow all rules and regulations of the school, including those outlined in the student handbook and the district policies and procedures. Further, students must conduct themselves as defined in the student handbook and policies and procedures and follow all stipulations as outlined in their individual student safety plans.

Notifications

Notifications from law enforcement or courts that a student required to register as a sex or kidnapping offender is enrolled or attending school can come to the principal in a variety of methods including email, U.S. mail, or hand-delivery.

Although currently there is no standard notification form statewide, the following items may be found on most notifications:

- A. Offender name, address, sex, height, weight, hair color, eye color, age, ethnicity, crime, sex offender level, convicting jurisdiction, neighborhood, proximity to schools, and level descriptors.

Notification Lists

Upon receipt of notification, the principal or a designee will review the list of students. The principal or designee will review the list to determine which students are currently enrolled, currently attending school, or are new to the district and not yet enrolled.

Notifying Additional School Personnel

The principal will designate additional school personnel to be notified following consultation with probation or parole (or the student's family if not on court supervision) in order to identify or recognize high-risk situations. The following staff should be considered:

- A. District Superintendent or designee, appropriate administrative and teaching staff, school resource officers, adjacent building principals, security personnel, staff working directly in the student's classrooms; and school counselors, school psychologists, coaches, advisors, school social workers, nurses, bus drivers, custodians, district daycare providers, and playground supervisors that may have contact with the student.

Student Intake Process

Students attending our schools who are registered sex offenders will have a specific intake process as defined below:

Snohomish School District Notice Procedures for Students Registered as Level II or III Sex Offenders

- A. The Human Services office receives Registered Sex Offender information from a local law enforcement agency.
- B. The Human Services office informs building administration, Transportation Supervisor and Executive Director of Academic Services.
- C. Building administrators make information available to all appropriate employees at work group staff meetings.
- D. Building administrators coordinate an "intake" meeting to develop an appropriate program placement and supervision plan for the student designed around the specific issues the student presents.
- E. The District will disseminate information received from law enforcement on sex offenders who are students at the direction of law enforcement and on the same basis as non-student sex offenders.

Safety Planning

The principal will complete safety planning with school staff, law enforcement, probation or parole, treatment providers, parents or guardians, care providers, and child advocates, as appropriate, in order to provide a safe school environment for all students and staff. For safety planning to be effective, the district will finalize formal enrollments for students required to register as a sex or kidnapping offender promptly after their enrollment request.

Convicted juvenile sex offenders will not attend a school attended by their victims or their victims' siblings. Offenders and their parents or guardians will be responsible for providing transportation or covering other costs related to the offenders' attendance at another school.

Student Meetings

The principal or designee, working together with probation and parole professionals, will meet promptly with the student to create and implement a student safety plan. The principal or designee will determine other appropriate school personnel to be included in the meeting to assist in defining school expectations. The student's parent or guardian or care provider may also be invited. The purpose for the meeting is to help the student be successful in his or her transition back to school and to provide a safe school environment for all students and staff.

Student Safety Plan

The principal or designee (and other school staff as applicable) in consultation with probation and parole professionals (if under court supervision) will create a student safety plan for each registered sex or kidnapping offender. The plan will outline the responsibilities of the student and other stakeholders to promote those activities deemed essential in safely managing the student's behavior.

- A. The Student Safety Plan will outline conditions and limitations on each student required to register as a sex or kidnapping offender concerning their interactions on school grounds;
- B. For students not under court supervision, the Student Safety Plan should be developed in conjunction with school staff in consultation with the student's family or guardian or care provider;
- C. The Student Safety Plan will be based on the student's needs and include guidelines for expected intervention actions for high-risk behaviors and reinforcement of positive behaviors;
- D. Each Student Safety Plan will be reviewed as necessary by staff designated by the principal.

Monitoring the Safety Plan

The Student Safety Plan will be monitored, and changes made on an "as-needed" basis by school staff.

- A. School authorities should be prepared to take appropriate actions (especially if they notice an increase or escalation of a student's high-risk behaviors) for the short and

long-term safety of the student required to register as a sex or kidnapping offender and all other students;

- B. School staff will report to the principal or designee and to law enforcement or other involved agencies (treatment providers, parole/probation) if they determine the student has not followed the Student Safety Plan.
- C. Follow-through on the Student Safety Plan will be consistent with existing disciplinary policies and procedures, student conduct policies, and mandatory reporting policies.

Schools may develop school threat assessment teams and make referrals to those teams when students engage in inappropriate behaviors as defined in the Student Safety Plan.

When Students Move or Change Status

When a student changes schools, whether within or outside of the district, the current principal will notify the new principal and share the student records and safety plans with the new school. If the student's sex offender status or probation or parole status changes, the principal will notify the school staff as part of the school's safety planning.
