

SNOHOMISH SCHOOL DISTRICT NO. 201
Snohomish, Washington

STAFF DEVELOPMENT
CONDITION OF TRAINING

I have received a copy of district Policy No. 5340, Staff Development, which sets forth the condition by which training in technology or special skill areas is provided by the district, if needed, during employment.

I understand the following:

It shall be a condition of receiving training that the employee shall return from the training and maintain district employment for a minimum of one (1) year from the date of completion of the training (training costing less than \$1,500 per class shall not be governed by this policy).

Any appropriate contractual arrangements between the district and the employee are to be made prior to the commencement of the training.
