

SKYWARD ACCESS INFORMATION FOR PARENTS

05.13.06.00.06-10.2

Login Area: Family/Student Acces ▼

Parents and guardians may access student information through the Family Access system. This system is a helpful tool that allows you to view your student's attendance, grades, add money to food service accounts, check bus routes and even e-mail your student's teachers. You may access the Family Access login page from our [Valley View Website](#) or the District website at www.sno.wednet.edu and select Family Access under Quick Links. Please note that each parent/guardian has his/her own specific logon that is linked to his/her name and e-mail.

If you have used Family Access in the past your Login ID/Username and Password will remain the same as it was last school year.

If you have used Family Access in the past, but have forgotten your login information, please click on the Forgot your Login/Password? You will then be prompted to enter your e-mail address or username and an e-mail will be sent directly to you allowing you to reset your password information. Please note that in order for this reset to work, your current e-mail address must be in the system. If you need to update your e-mail address, please contact our Registrar, Mrs. Galusha at 360-563-4239.

If you are a brand new family to our District and Valley View, please contact Mrs. Galusha at 360-563-4239 for your access information.
