## Fundamental Springboard Diving

(Must be able to swim safely in deep water. Minimum age of 7.)

The goal of this group is for divers to have fun and be safe while learning the basic fundamentals of the sport of diving. Divers will progress through an 8-level progression in accordance with the USA Diving Future Champions program. As divers progress through beginning, intermediate and advanced levels, regular testing will be held to demonstrate proficiency in their dives and advance to the next level. Based on this testing, feedback will be provided to divers and their parents to notify them of their progress, highlighting areas of strength, and provide suggestions on how they can improve.

## Competitive Diving

(Geared for students in grades 7-12)

Competitive divers will train on a 1-meter springboard and work on developing and executing a 6-dive and 11-dive list for competitions.

Our on-deck evaluator is always available to answer questions. Look for the orange shirt.
