

# CMS Library Organization

Our Centennial Middle School students are busy! With limited time, we have made the books easier and quicker to locate for students by organizing our school library by genre. About half of our library collection is non-fiction, the other half is fiction. The fiction is organized by color into 11 different genres & formats. Books are organized by author's last name within each fiction genre. Students can find books in our online catalog by looking at the author's last name and the sublocation of where it is located.

## GENRE *Color Guide*
