

# ART WIZARDS®

## ONLINE

Emily Gu, 4th grade

Mark Shorr, 4th grade

Every child can learn to draw and paint  
**We show them how**

## LIVE AND INTERACTIVE ONLINE ART CLASSES

In these weekly classes, we'll show your children the best ways to use their materials, where to put their attention, and how to get the picture in their mind onto their paper. They'll learn to see the way that artists do, and have fun with individualized, non-competitive lessons. You can see some of our students' work in the galleries at [artwizards.org](http://artwizards.org). Because our students can see progress, they remain enthusiastic and motivated. And, there's a big payoff.

### Students who are actively involved in the arts are:

- 4 times more likely to be recognized for academic achievement
- 3 times more likely to be elected to class office within their schools
- 4 times more likely to participate in a math and science fair
- 3 times more likely to win an award for school attendance
- And are nearly TWICE as likely to read for pleasure\*

**And those who draw what they are learning, no matter the subject will remember it many times longer than those who don't**

\*A Report on Community-based Youth Organizations, Shirley Brice Heath, Stanford University and Carnegie Foundation For the Advancement of Teaching, Americans for the Arts Monograph

To get the most from the class, your young artist will need chalk and oil pastels. We've discounted our regular tuition to make getting them as easy as possible, and we'll let you know where to get them both for about \$20. You probably already have paper and pencil, markers and colored pencils at home. We'll use those, too.

**8 classes begin February 23rd**  
**Wednesday afternoons at 4:30**

Class meets once each week for 8 weeks

8 weeks = \$104

These classes tend to fill up quickly, so **Register early!**

Register online at

Max Baker, 2nd grade

*I love the fact that my daughter now has a new outlet for her creative (wild) imagination. Now she draws all the time. And I'd much rather see her with a colored pencil than with a remote control in her hand.*

**Rhonda Taylor, Parent**

*Art Wizards is the program I wish had been available when I was in school. I really struggled with drawing, and never knew it could be made so easy.*

**Terri Barber, parent**

*Now that my son draws more confidently, he sketches his ideas, illustrates his assignments and creates cartoons for friends and family. I am thrilled.*

**Steve Carson, Parent**
