School Views is to let our community know about the programs.

Did you know the majority of people who live in the Snohomish District recognized by the Snohomish Chamber of Commerce with its 2017 Youth Program Award, expects to serve about 25,000 breakfasts and lunches. Since the program's inception in 2010, 154,555 summer meals have been served into the hands of thousands of kids.

Our Kids' Café summer feeding program, which was recently into the hands of thousands of kids. The Snohomish Aquatic Center is home to the only indoor FlowRider® surf-simulation machine in all of Washington. Stand-up riders and body boarders have access to our perfect surf conditions year round – day or night – rain or shine. The FlowRider® surf-simulation machine crosses snowboarding, skateboarding and wakeboarding into an exciting ride with plenty of challenges and a whole lot of fun! We offer open surf, surf lessons, private rentals, competitions and more.

Each summer, hundreds of students inspire their minds and hearts through the school district's Science & Arts Academy! As the program has grown over the years, Philippa Farrell, administrator of the Science and Arts Academy, have a number of community activities planned throughout the coming months which I would like you to be aware.

Science & Arts Academy — Engaging in wonder and learning

Each summer, hundreds of students inspire their minds and hearts through the school district’s Science & Arts Academy.

As the program has grown over the years, Philippa Farrell, administrator of the Science and Arts Academy, continues to ask herself “What are kids interested in? How can we build their confidence and success? How can we engage them in learning and wonder while igniting a lifelong love of learning?” To do that, Farrell works with a summer staff of more than 80 to create courses of interest to kids.

“The Snohomish summer academy lets students engage in exciting, hands-on classes,” said Farrell. “They take field trips to enhance their learning and explore their surroundings. They work together to accomplish goals, and they build lasting friendships. Teachers create opportunities for students to wonder, explore, create and allow their curiosity to guide their learning. Whether they are learning to play guitar, building robots, creating culinary or scientific concoctions, designing a Rube Goldberg device, exploring Puget Sound sea life, or interacting with the community through Amazing Race Snohomish, students and teachers are learning and having fun.”

The Science & Arts Academy offers multiple benefits. “During the summer months, vulnerable students often show a slide in academic skills, especially literacy,” said Allison McGregor-Fornes, district assessment coordinator. “The data collected shows that students, especially English language learners, low-income students and struggling readers who attend the summer academy, are better able to resist this loss of literacy skills. In fact, these groups of students show median growth much higher than their peers who did not attend.”

This year’s Science & Arts Academy runs July 2 through July 26. Classes are held from 8:30 a.m. to 1 p.m. at Snohomish High School (1315 Fifth Street in Snohomish). Classes are available to students entering grades 1 through 9. To learn more or to register for summer classes, visit www.sno.wednet.edu/summeracademy.

Dear families and friends,

As we close out another school year, it gives me time to reflect on the countless academic and extracurricular achievements. As a community we can certainly be proud of the quality of our staff, reputation of our schools and actions of our students.

Snohomish School District is a great place to learn!

We have a number of community activities planned throughout the coming months which I would like you to be aware:

• Our Kids’ Café summer feeding program, which was recently recognized by the Snohomish Chamber of Commerce with its 2017 Youth Program Award, expects to serve about 35,000 breakfasts and lunches. Since the program’s inception in 2010, 134,315 summer meals have been served to kids who may have otherwise gone without.

• Our Book Café and summer literacy program will get books into the hands of thousands of kids.

• In July, hundreds of students will till Snohomish High School’s classrooms and hallways at our annual summer Science & Arts Academy. Student learning will be enhanced through a wide breadth of class offerings in such topics as renewable energy, black printing, cooking, robotics, aeronautical engineering and much more.

• Throughout summer vacation, our teachers and support staff will engage in meaningful professional development and other learning experiences.

• Our cultural, amusement and technology crews, which continue their good work throughout the summer, will ensure our classrooms, schools, buses and playgrounds ready for the first day of school.

As you read through this issue of School Views, please also note the important registration and meet-the-teacher dates for the upcoming 2018-2019 school year. Most importantly as we close out the school year, I hope you take time this summer to relax and enjoy time with your families and friends.

Dr. Kent Kultgen

**First day of school**

- Wednesday, September 5: First day of school for 1st – 7th and 9th graders, as well as new AIM High School students
- Thursday, September 6 and Friday, September 7: All students except kindergarteners attend school
- Monday, September 10: First day of school for students in kindergarten. Kindergarten families will be invited to attend a short family meeting with their child’s kindergarten teacher during the first three days of the school year. These parent-teacher meetings will be scheduled between September 5 and September 7. Parents will receive more information about this family meeting from their child’s school

**School offices**

- School offices will be closed during the summer
- High school offices will reopen on Friday, August 17
- Middle and elementary school offices will reopen on Monday, August 20

**Elementary school libraries**

Elementary school libraries will be open throughout the summer for more information about school supply lists, free/reduced meal applications, immunizations, breakfast/lunch menus, school newsletter subscriptions, student transportation and more.

**Skyward/Family Access**

Skyward/Family Access will be open for viewing transportation schedules, teacher assignments, student schedules, food services information and other important information beginning at 6 p.m. on Thursday, August 30. Please note that individual teacher assignments and student schedules may be subject to change up to the first day of school.

**More**

Please check district or school websites throughout the summer for more information about school supply lists, free/reduced meal applications, immunizations, breakfast/lunch menus, school newsletter subscriptions, student transportation and more.
Dear families and friends —

As you read through this issue of School Views, please also note the important registration with your families and friends.

Dr. Kent Kultgen
Superintendent

Each summer, hundreds of students inspire their minds and hearts through the school district’s Science & Arts Academy — Engaging in wonder and learning. As the program has grown over the years, Philippa Farrell, administrator of the Science and Arts Academy, continues to ask herself, "What can we do to ensure that our students develop a sense of curiosity and ingenuity? How can we help them feel motivated to continue learning and achieving?" To do that, she has been working hard to create courses of interest to kids.

During summer break, children may feel cut off from classroom instruction and focused learning. To address this problem, Farrell created the Science and Arts Academy, which is supported by the Snohomish Chamber of Commerce with its 2017 Youth Program Award. The Academy offers multiple benefits. "During the summer months, vulnerable students often show a slide in academic skills, especially literacy," said Allison McGregor-Fornes, district assessment coordinator. "The data collected shows that students, especially English language learners, low-income students and struggling readers who attend the summer academy, are better able to resist this loss of literacy skills. In fact, they show growth in their reading scores, much higher than their peers who did not attend."

This year’s Science & Arts Academy runs July 2 through July 26 at Snohomish High School, held from 8:30 a.m. to 1 p.m. Our summer breakfast and lunch. Classes are available to students entering grades 1 through 9. To learn more about the Summer Academy, go to www.sno.wednet.edu/summeracademy.

The Science and Arts Academy is just one way in which the Snohomish School District is working to maintain a strong connection with our students over the summer. Each summer the district offers a number of community activities planned throughout the coming months which I would like you to be aware.

The Science & Arts Academy runs July 2 through July 26 at Snohomish High School, held from 8:30 a.m. to 1 p.m. Our summer breakfast and lunch. Classes are available to students entering grades 1 through 9. To learn more about the Summer Academy, go to www.sno.wednet.edu/summeracademy.

The Snohomish Aquatic Center is home to the only indoor FlowRider® surf-simulation machine in all of Washington. Stand-up riders and body boarders have access to our perfect surf conditions year round – day or night – rain or shine. The FlowRider® surf-simulation machine crosses snowboarding, skateboarding and wakeboarding into an exciting ride with plenty of challenges and a whole lot of fun! We offer open surf, surf lessons, private rentals, competitions and more!

Did you know the majority of people who live in the Snohomish School District do not have school-aged children? The purpose of School Views is to let our community know about the programs, events and activities happening at our schools. To reduce the cost of postage we use a bulk mailing process that delivers to every residential customer on a carrier's route.
