CURRICULUM/INSTRUCTION/ASSESSMENT

Grades K-4 Achievement Goals: Reading

In an effort to improve student learning by setting achievement goals in critical curriculum areas, the following standard is established using the Washington Assessment of Student Learning to measure student achievement:

The goal of the district shall reflect an increase in the percentage of students meeting or exceeding the curriculum standards on the Washington Assessment of Student Learning by the end of the target year by a percentage equal to or greater than that determined by the State Legislature.

The board will determine which year will be selected as the baseline achievement for the district for each grade level for which standards are set.
