

STUDENTS

Student Policies Goals

There is no more important right for young people than the right to a free education. The district endeavors to provide the best learning opportunities possible within the resources available. In addition to a full instructional program, those opportunities include a wide range of student activities to stimulate the athletic, artistic, and creative skills of students.

In exchange for these opportunities both students and their parents assume substantial responsibilities in order to preserve an orderly and safe school learning environment. Students must abide by the reasonable rules and instructions of their teachers. Discipline is fairly administered to modify student behavior rather than to punish. Parents are encouraged to inquire about the successes and problems of their children and to reinforce their learning at home by showing an active interest in students' development.

Adoption Date: June 24, 1992
