

## NONINSTRUCTIONAL OPERATIONS

### Automated External Defibrillators

Snohomish School District recognizes that cardiac arrest claims thousands of lives each year. In collaboration with local emergency medical service providers it will initiate a Public Access to Defibrillation Program. Automated External Defibrillators will be used to treat victims who experience sudden cardiac arrest.

The Superintendent or his designee will:

- Consult and coordinate with local emergency medical service providers;
- Design and implement a Public Access to Defibrillation Program.
