Facilities Master Plan

In order to efficiently manage the district's present and future facilities needs, a facilities master plan shall be developed. Such plan shall cover a ten-year period, be reviewed annually and include at least the following:

1. A cost analysis of financial ability of the district to implement its facilities program;
2. Existing and projected enrollment figures, including an analysis of the racial composition of the student population;
3. An inventory of the district's undeveloped property and developed facilities, including an analysis of the number of students in each facility and whether the facility is over or under-crowded.
4. An analysis of the appropriateness of the facilities to meet the needs of students, including their acceptability to students of both sexes and those with disabling conditions;
5. Recommendations as to the sale or other disposition of district property not needed in the future; and
6. Recommendations as to the acquisition, construction, or modification of new sites or facilities and of how such shall better meet the needs of students and the educational program.
