Comparing Careers Worksheet

STEP 1: Choose two careers that interest you. Record the information requested for each career.

Career Choice: <i>Example- Architect</i>	1.	2.
Duties: What are the common work activities used in each career, including hours and travel?		
Requirements: What skills and abilities are necessary for each career?		
Training: What is the training required for each career? What educational programs would train you for these careers?		
Training: What high school courses would help you prepare for this career?		
Wages: What is the average starting salary for these careers? How much might you make with experience?		
Employment: What is the outlook for each career? Will job opportunities grow, decline or stay the same? Who are the major employers for each career?		

Step 2:

Go to "Assemble my portfolio" → "Goals" → "Career"

Add Career Goal:

- Title: Name of top career
- Grade level: Grade 10
- Career goal: Why is this your top career?
- Comments: Additional information you learned today
- Goal type: Career
